

TABLE DESIGN

Table No1: Login**Primary Key: logid**

Field Name	Type	Size	Description
logid	int	30	Login_id
uname	varchar	30	Username
password	varchar	30	Password
status	int	10	Status

Table No2: Register**Primary Key: regid****Foreign Key: logid**

Field Name	Type	Size	Description
regid	int	30	Staff_id
logid	int	30	Login_id
fname	varchar	30	First name of passenger
lname	varchar	30	Last name of passenger
gender	varchar	30	Gender of passenger
dob	date	30	Date of birth of passenger
Phno	int	30	Contact number of passenger
emailid	varchar	30	Email id
status	int	10	Status

Table No3: Addonservices**Primary Key: adid**

Field Name	Type	Size	Description
adid	int	30	Addon_id
adname	varchar	30	Addon service name

amt	float	30	Amount for addon service
status	int	10	Status

Table No4: Dailyflight

Primary Key: dailyid

Foreign Key: fid

Field Name	Type	Size	Description
dailyid	int	30	Dailyflight_id
fid	int	30	Flight_id
orgin	varchar	30	Orgin of flight
destination	varchar	30	Destination of flight
departuredate	date	30	Departure date of flight
departuretime	varchar	30	Departure time of flight
arrivaldate	date	30	Arrival date of flight
arrivaltime	varchar	30	Arrival time of flight
status	int	10	Status

Table No5: Classtype

Primary Key:ctid

Field Name	Type	Size	Description
ctid	int	30	Classtype_id
cname	varchar	30	Class name
eseat	int	30	Number of seats in economic class
bseat	int	30	Number of seats in business class
ewseat	int	30	Number of window seats in economic class

bwseat	int	30	Number of window seats in business class
motherchild	int	30	Number of seats for mother and child
remaningseat	int	30	Remaning number of seats
status	int	10	Status

Table No6: Flighttype

Primary Key: ftid

Field Name	Type	Size	Description
ftid	int	30	Flighttype_id
fname	varchar	30	Flight type
status	int	10	Status

Table No7: Flightname

Primary Key: fid

Foreign Key: ctid,ftid

Field Name	Type	Size	Description
fid	int	30	Flight_id
ctid	int	30	Classtype_id
fname	varchar	30	Flight name
ftid	int	30	Flighttype_id
weight	int	30	Weight can carry
status	int	10	Status

Table No8: Flightrate

Primary Key: rateid

Foreign Key: dailyid

Field Name	Type	Size	Description
rateid	int	30	Rate_id
dailyid	int	30	Daily_id
amt	float	30	Basic amount
status	int	10	Status

Table No9: Specialplace

Primary Key: spid

Foreign Key: stateid,districtid

Field Name	Type	Size	Description
spid	int	30	Package_id
stateid	int	30	State_id
districtid	int	30	District_id
place	varchar	30	Package place
description	varchar	30	Description of place
pimage	blob	30	Image of place
status	int	10	Status

Table No10: Packagerate

Primary Key: prateid

Foreign Key: dailyid

Field Name	Type	Size	Description
prateid	int	30	Packagerate_id
dailyid	int	30	Daily_id
amt	float	30	Amount
discount	int	30	Discount for package
status	int	10	Status

Table No11: State

Primary Key: sid

Field Name	Type	Size	Description
sid	int	30	State_id
sname	varchar	30	State name
status	int	10	Status

Table No12: District

Primary Key: distid

Field Name	Type	Size	Description
distid	int	30	District_id
dname	varchar	30	District name
status	int	10	Status

Table No13:Feedback

Primary Key:feedid

Foreign Key: logid,bid

Field Name	Type	Size	Description
feedid	int	30	Feedback_id
logid	int	30	Login_id
bid	int	30	Booking_id
feedback	varchar	30	Feedback
status	int	10	Status

Table No14: Notice

Primary Key: pid

Field Name	Type	Size	Description
nid	int	30	Notice_id
notice	varchar	30	Notice
status	int	10	Status

Table No15: Booking

Primary Key: bid

Foreign Key: logid,regid,fid,adid

Field Name	Type	Size	Description
bid	int	30	Booking_id
logid	int	30	Login_id
regid	int	30	Registration_id
fid	int	30	Flight_id
adid	int	30	Addon_id
status	int	10	Status
